

ATLANTICO

APARTMENT STATIONS

Atlantico door phone.
More than just an exercise in style.
It is the pinnacle in design.

Imagine a home, your home. Where you have that last detail to choose to make your home perfect. You have thought about and planned even the smallest detail. Including the colour schemes and accessories. Is there something missing? Are you thinking of that finishing touch that everybody will notice? Well, here is Atlantico that will put a new perspective on things. Yes,

this is Atlantico and Urmet. Atlantico revolutionises the concept of a door phone systems. Its form was designed by Architect Michele De Lucchi to enhance the simplicity and essentiality of its lines. Atlantico's unique design is the result of in-depth ergonomic human hand studies. Because Urmet understands that design should not only look good but also be intelligent.

Atlantico door phone. Lines that are the pinnacle in design.

The lines of Atlantico are the pinnacle in terms of clean and pure forms. But, the exceptional beauty of the door phone design is combined with the perfect logic of its technology.

From a technical point of view, Atlantico presents no installation problems and easily adapts to all common systems whether "4+n" or "1+1". Maximum simplicity, also promoted by the handset with **cable and telephone-style connector**, the sliding track terminal strip for connection to the system and the **telephone-style hook lever switch**.

Telephone plug at the base of the door phone.

DOOR PHONE

- ■ **Ref. 1133** White electronic door phone with door lock release key
White ABS case.
- ■ **Ref. 1133/1** White electronic door phone with door lock release key and 1 service key
Pre-engineered for insertion of another 2 independent keys that can be used for intercom systems or auxiliary services (call to the entrance switchboard, opening of a secondary electric lock, etc.). White ABS case.
- ■ **Ref. 1133/10** White electronic door phone with activation key on the hand-set and door lock release key
The voice communication key, which must be pressed during the conversation, avoids any disturbance to other door phones if the hand-set has not been replaced correctly. White ABS case.
- ■ **Ref. 1133/20** White electronic door phone with 2 leds, 1 switching device
Makes it possible to mute the sound of the door bell, to check whether the entrance door has been left open through lighting up of a led, to automatically release the electric lock when the call is forwarded (particularly useful for doctors during surgery hours). White ABS case.
- ◆ ▲ **Ref. 1133/35A** White electronic door phone with door lock release key and secrecy of conversation for "1+1" wire systems
White ABS casing. One standard supplementary service button. Other two buttons can be arranged.
- ■ **Ref. 1133/12** 12 button door phone
Can be used in intercom systems with up to 13 door phones. Three supplementary buttons or one switch and two LEDs (kit 1133/56) can be added.
