## About DynaColor

DynaColor specializes in CCTV video surveillance products and CRT/LCD AOI systems. Headquartered in Taipei since 1991, DynaColor has achieved continuous growth and market recognition.

### CCTV Solution Provider

DynaColor designs and manufactures CCTV video surveillance products, including speed dome cameras, digital video recorders (DVRs), multiplexers, remote software interface, and control keyboards. These products are used in various locations, including retail stores, government offices, schools, city halls, airports, military bases, prisons, parks, streets, banks, shopping malls, stadiums, and a wide range of other medium and high security applications.

DynaColor delivers CCTV solutions for both small and large applications, from simple surveillance task with only a few cameras for small stores and buildings, to large installations with complex networks and security needs.

### A Reputation of Quality

DynaColor has established an excellent reputation not only in CCTV security products, but also in the LCD AOI system and industrial cameras. Quality is controlled during every phase of development, as DynaColor is ISO-9001 certified by DNV.

Technological advances and customer orientation are the keys to DynaColor's success in a rapidly changing market.

Through focused management and revenue-based incentive programs, DynaColor has quickly identified, executed, and excelled every planned product. By working closely with our partners, many well known companies worldwide, DynaColor constantly improves our technology, operation, quality control, and manufacturing.

It is our goal to become the leading provider of innovative products and a reliable business partner in each of our targeted sectors.

DynaColor has established overseas branches in Irvine, California and in Tokyo, Japan to facilitate sales activities and services for our customers abroad. To learn more about DynaColor, please visit our web sites:

### Corporate Strategy

- Technology-Driven:  
Enrich professional man-power, acquire and develop core technology.

- Strategic Alliance

Expand worldwide cooperative partnerships through technical alliance, marketing alliance and application alliance, 3 perspectives to provide professional total solutions and services.

- Niche Products

Provide full featured and value-added products, be customer orientated, and meet various market needs.

## Greetings from CEO

For more than 15 years, DynaColor dedicates itself to be an "image solution provider." Starting with award-winning CRT alignment system, DynaColor became the industry leader in high quality, cost effective multiplexer and industrial camera over the years. In the rapidly changing CCTV market, DynaColor develops a wide range of competitive products, which offer our clients a comprehensive product portfolio and the flexibility for customization.

We believe having a strong R&D team is the foundation to providing our customers innovative solutions. With highly experienced engineers (over 50% of total employees) in DynaColor, we can assure our clients the competitiveness and reliability of our products. Through OEM projects, commissioned by top brands around the world, we possess the critical know-how and credentials to serve our clients in accordance to their specific needs. We adopt the ISO 9001 standard to regulate our administrative process and to ensure strict quality control process. It is our commitment to quality, innovation and customer support that provides our clients the advantage to excel in the ever evolving and highly competitive market.

In the new millennium, amid optimistic prospect yet challenged by fierce competition in the industry, DynaColor will focus on providing our customers the total video surveillance solution, synchronizing video camera products, digital video recorders and system control units. With our advanced video processing technology, solid system integration credential and competence in customized products, we believe DynaColor is the solution for your video surveillance requirement.

### Features

#### Precise and Accurate Dome Performance

- Preset speed up to 400°/sec.
- Preset accuracy of 0.225°
- Proportional Pan & Tilt Speed
- Preset Position/Auto-Pan/Sequence/Cruise
- Auto Calibration
- Digital Image Flip (Optional)

#### Dynamic Dome Applications

- Multi-language OSD
- Schedule function
- Multiple built-in Protocols **NEW**
- Up to 24 masking zones (Optional)
- 8 alarm inputs, 1 alarm output
- Motion Detection (Optional) **NEW**
- Flexible indoor/outdoor mountings
- Compact lightweight design for easy installation
- Weather resistant housing
- All-in-one type

#### Superior Camera Image Quality

- Minimum illumination 0.01 Lux (B/W)
- Digital Slow Shutter
- Electronic Shutter
- Wide Dynamic Range (Optional)
- Auto White Balance
- Backlight Compensation
- Auto Exposure
- Image Inverse (Optional) **NEW**
- Electronic Image Stabilizer (Optional) **NEW**
- Removable IR Cut Filter (Optional) **NEW**

## DynaHawk™ 701/801+ Series

The DynaHawk™ 701/801+ series integrated high speed dome cameras, built on quality and performance, are now available with 35x optical zoom, high resolution 540 TV lines, and advanced features. These dependable high speed dome cameras are not only part of a complete DynaColor surveillance solution, they also support other key global surveillance systems for effortless integration. Blending performance and compatibility, the DynaHawk™ 701/801+ series is a versatile surveillance solution for indoor/outdoor and day/night applications.

### System Configuration

## Flexible Scalability

Comprising a myriad of models, there is a DynaHawk™ Integrated High Speed Dome Camera for every surveillance application. Encompassing models equipped with optical zoom ratio ranging from 18x to 35x, and different options for resolutions, rotation performance, indoor, outdoor, day or night, the DynaHawk™ 701/801+ series provides a top to bottom solution for all types of surveillance applications and scalability for installation experts.

### Indoor integrated High Speed Dome Camera

The DynaHawk™ 701 series Integrated High Speed Dome Camera will fulfill your large scale surveillance operations. With features such as digital image flip and high resolution silent motor, the DynaHawk™ 701 offers easy controls and precision tracking. The DynaHawk™ 701 can be integrated into any existing CCTV surveillance system because of built-in major protocols such as DynaColor, Pelco, VCL, Philips, Kalatel, AD-422, and more.

DH701

### Outdoor Integrated High Speed Dome Camera

The DynaHawk™ 801+ series is a compact lightweight design high speed dome camera that includes a weather resistant housing which meets IP66 international standards and can withstand the toughest environment. Additionally, with built-in heater and fan, the DynaHawk™ 801+ is capable of operating at temperatures ranging from -45°C to 50°C making it the best choice for extreme weathers. With a full line of accessories, the DynaHawk™ 801+ series is capable of accommodating any indoor and outdoor installation requirements.

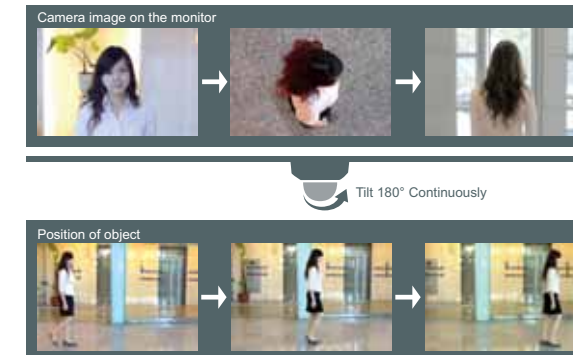

DH801+

## Robust Performance

The DynaHawk™ 701/801+ series contains robust functions such as Schedule and Home function. The Schedule and Home functions can be customized for various types of surveillance needs, enabling the camera to operate automatically and reducing user input for a more efficient surveillance solution. In addition, the DynaHawk™ 701/801+ series is capable of self correction through Auto Calibration if the dome head is disturbed by external forces.

### Digital Image Flip

The Digital Image Flip function can reverse the image through the digital processing without interruption while tracking the object passes directly beneath the dome. This advanced function enables smooth and continuous tracking.

### Auto Calibration

The DynaHawk™ 701/801+ series is capable of self correction if the dome head is disturbed by external forces. The camera will constantly align itself against vertical and horizontal check points to maintain accurate operation.

### Image Inverse

The Image Inverse feature enables the integrated high speed dome to inverse video image both vertically and horizontally. This feature allows the dome camera to be used as a conference camera on the desktop.

### Motion Detection

With the Motion Detection function, as the speed dome camera detects any image changes via motion or intrusion within its visual range, it triggers alarm output for warning. In order to satisfy various light condition, there are multiple detection modes ensuring maximum detection and accurate reactions.

### Home Function

The DynaHawk™ 701/801+ series can be setup to execute a variety of functions if left idle for a period of time. These functions include: Preset Positions, Sequence, Auto Pan, and Cruise. The user can also configure the camera's idle time before automatically running these functions. The Home function will ensure persistent and accurate monitoring for constant surveillance, preventing missed events and minimizing user manipulation.

Automatically return to Preset, Sequence, Auto Pan or Cruise

### Schedule Function

The Schedule function enables users to program the dome camera to carry out a function – Preset Position, Sequence, Auto Pan, or Cruise – at a specified time of the day, enabling users to customize their dome camera behavior to meet their need.

Automatically execute Preset, Sequence, Auto Pan or Cruise

## Superior Image Quality

The DynaHawk™ 701/801+ series is equipped with many advanced image processing features that reduce distortion caused by environmental factors and deliver superior video quality. With the internal image stabilizer, the speed dome cameras can eliminate environmental vibration and deliver sharp and smooth image. In complex light condition, the DynaHawk™ 701/801+ series high speed dome camera excels with the Wide Dynamic Range function and guarantees all the details of captured image. The Day/Night function and Digital Slow Shutter function are designed to enhance low-light image detail, perfect for 24-hours surveillance applications.

### Image Stabilizer

With the Image Stabilizer Function, the high speed dome camera can capture images that would otherwise be blurred due to the vibration. The built-in electronic compensation filters out the vibrations of up to 80% movement at 10Hz, as caused by wind or other environmental conditions.

### Wide Dynamic Range (WDR) Function

The Wide Dynamic Range (WDR) function is especially effective in environment with extreme contrast. The WDR function records images at different shutter speeds, and digitally combines the images to prevent over- or under-exposed picture.

### Privacy Masking Function

Allows users to mask selected areas to avoid any intrusive monitoring.

### Day/Night Function with removable IR Cut Filter

The IR Cut Filter can be automatically or manually removed depending on the light condition, enabling the camera to capture color video in light condition and black-and-white video in low light condition.

# ➤ Vandal Proof Mini Speed Dome Camera

## Features

### Precise and Accurate Dome Performance

- Preset speed up to 300°/sec.
- Preset accuracy of 0.5°
- 720° pan rotation with Auto Flip Back
- Proportional Pan & Tilt Speed
- Preset Positions/Auto Pan/Sequence/Cruise
- Auto Calibration
- Automatic Mechanical Image Flip (180°)

### Dynamic Dome Applications

- Schedule Function **NEW**
- Multiple built-in Protocols
- Extraordinary lightweight design for easy installation
- Vandal proof dome cover
- Weather resistant housing (DynaHawk™ 600 series)
- Flexible indoor/outdoor mountings

### Superior Camera Image Quality

- 12x (Optical Zoom) expandable to 18x
- 10x (Digital Zoom)
- Backlight Compensation
- Auto Focus
- Auto White Balance
- Auto Gain Control
- Auto Iris Control
- Auto Calibration
- Removable IR Cut Filter (Optional) **NEW**
- Minimum Illumination: 1 lux, 0 lux (IR illuminator)

## DynaHawk™ 500/600 Series

The DynaHawk™ 500/600 vandal proof mini speed dome camera series is a new member to the DynaHawk™ family, incorporating many well-known features from High Speed Dome Camera Series, such as multiple built-in protocols, Schedule and Home function. The DynaHawk™ 500/600 series is an affordable compact speed dome camera, delivering uncompromised functionality and performance at a competitive price.

## System Configuration

### Proportional Pan & Tilt Speed

The pan and tilt speed is proportional to the optical zoom ratio of the camera; when the camera is zoomed in, the panning speed will be slowed to improve camera tracking and controllability. This feature will prevent losing sight of the subject when the camera zooms in.

### Mechanical Image Flip

The Mechanical Image Flip function can reverse the image by rotating the dome body horizontally 180 degrees to track the subject as it passes directly beneath the dome. This automatic function will eliminate blind spots under the camera and improves user control.

### Auto Flip Back

The DynaHawk™ 500/600 series supports 720 degrees pan and 110 degrees tilt. As the dome camera pans to its end point, it will automatically turn 360 degrees back and then keep tracking object continuously. Therefore, users do not have to turn the dome back manually, and experience smooth continuous object tracking capability.

### Indoor Vandal Proof Mini Speed Dome

The DynaHawk™ 500 is the ideal economical surveillance solution for vandal-proof applications. This compact and feature-rich mini speed dome camera offers superb video performance. With die-cast aluminum construction dome housing design, the DynaHawk™ 500 protects the camera in vandal prone environment.

DH500

### Backlight Compensation (BLC)

A bright background or shade can result in the subject of the image appearing darkened. The backlight compensation mode gives you a bright and beautiful image.

### Flexible Mounting Options

The DynaHawk™ 500/600 series shares the same mounting accessories as the DynaHawk™ 701/801\* series. Existing accessories include pendent mounting, wall mounting, ceiling mounting, and flush mounting.

### Outdoor Vandal Proof Mini Speed Dome

With its weather resistant housing (IP66 compliant) and sunshield, the DynaHawk™ 600 series is ready for demanding outdoor application. Building on top of the extensive features of the DynaHawk™ 500, the DynaHawk™ 600 also includes IR Cut Filter for night time surveillance or low light condition. Its compact profile and easy installation makes it the perfect choice for outdoor surveillance operation.

## DynaHawk™ Family Features

### Comprehensive System Compatibility

The DynaHawk™ 500/600/701/801+ speed dome camera series supports all major protocols – Pelco, Philips, AD, VCL, and more. With our enhanced compatibility, the DynaHawk™ speed dome cameras can be seamlessly integrated into any existing surveillance system.

### Common Installation Accessories

Installation accessories, such as the Coaxial Telemetry and Signal Distributor, are designed to offer even more flexibility to the users whether for all coaxial system or for large installation over wide area. And our mounting accessories provide quick and elegant setup that is inconspicuous and durable.

### Multi-Language OSD

The dome camera supports multi-language OSD operation; the available languages include English, French, German, Italian, Japanese, Polish, Portuguese, Russian and Spanish.

### Alarm Triggered Functions

The DynaHawk™ speed dome cameras can be configured to execute pre-determined functions automatically when an alarm is triggered. There are a total of 8 alarm inputs that can be set to initiate different functions. Similarly, the Motion Detection function can also trigger pre-determined functions when motion is detected.

### Firmware Upgrade via RS-232

With the newly integrated upgrade connector, the dome camera firmware can be upgraded instantly via RS-232 connection. This feature will allow easy support even after installation.

## Application

### Stores and Banks

Users can simply configure the DynaHawk™ speed dome camera to execute different functions in different time period and circumstances with its schedule function. For Banks or Stores, it is more appropriate to configure the speed dome to execute a Sequence line or Auto-Pan function to capture important points or a broad view during day time.

During the night time, the speed dome camera can be set to focus on the entrance and trigger alarm as it detects motion. The DynaHawk™ series can also integrate with other security system with its alarm inputs. As other security devices are triggered, the speed dome camera will receive the signal and execute pre-determined function. The DynaHawk™ speed dome camera series will satisfy all your surveillance needs with robust and flexible functions.

### Airport

Equipped with 35x optical zoom ratio, the DynaHawk™ 701/801+ series can cover a wide area with ease. It allows users to view ultra high resolution images at 540 TV lines capturing minute detail. By configuring the Alarm functions, the DynaHawk™ 701/801+ series will automatically zoom in on sensitive areas when an access alarm is triggered. The high resolution, high zoom ratio DynaHawk™ 701/801+ series provides the performance and convenience for wide area surveillance.

## Speed Dome Installation Accessories

## DynaHawk™ Installation Accessories

The DynaHawk™ speed dome camera series offers a wide range of accessories to facilitate all surveillance installations, including various indoor and outdoor mountings, special optical covers to match and complement the surroundings, and power supplies for different voltage requirements.

The DynaHawk™ speed dome camera series is designed with various mounting options. Users can select the most suitable accessories to complete the installation depending on the camera mounting requirements. With various types and sizes of accessories, users can mount the camera in virtually any environment.

### Indoor Dome Accessories

#### Transparent / Vandal Proof Cover

4.3" Optical Cover  
Diameter: 109 mm (4.3 inches)  
Compatible with: DH500

5.4" Optical Cover  
Diameter: 137 mm (5.4 inches)  
Compatible with: DH701

#### Smoke Cover

5.4" Smoke Cover  
Diameter: 137 mm (5.4 inches)  
Compatible with: DH701

#### Power Adapter

D77H07-A1015  
Input: 100~115VAC / Output: 24VAC 36VA

D77H07-A2015  
Input: 220~230VAC / Output: 24VAC 36VA

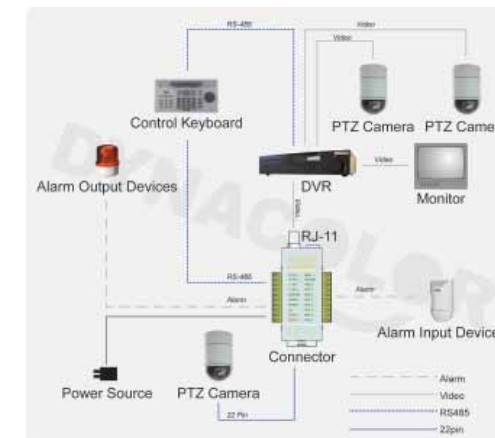

#### Connector Box

The D77H07-C00 connector box provides easy wiring and well organized connection between alarms, cameras and other devices, for easy installation.

Dimension: 92x42 mm (3.7x1.7 inches)  
Weight: 0.13 kg (0.3 lbs)

#### System Configuration

### Outdoor Dome Accessories

#### Transparent / Vandal Proof Cover

5.4" Optical Cover  
Diameter: 137 mm (5.4 inches)  
Compatible with: DH600

5.8" Optical Cover  
Diameter: 147 mm (5.8 inches)  
Compatible with: DH801\*

#### Smoke Cover

5.4" Smoke Cover  
Diameter: 137 mm (5.4 inches)  
Compatible with: DH600

5.8" Smoke Cover  
Diameter: 147 mm (5.8 inches)  
Compatible with: DH801\*

#### Power Adapter

D77H07-A1030  
Input: 100~115VAC / Output: 24VAC 72VA

D77H07-A2030  
Input: 220~230VAC / Output: 24VAC 72VA

#### Sunshield

Height: 89.9 mm (3.5 inches)  
Diameter: 190 mm (7.5 inches)  
Compatible with: DH600

Height: 129.5 mm (5.0 inches)  
Diameter: 190 mm (7.5 inches)  
Compatible with: DH801\*

#### Power Box

The D77H07 is a power supply, with integrated connection for communication and alarm, designed for outdoor applications with the DynaHawk™ speed dome camera, providing water resistant protection. The unit has one fused output and can handle a total load of 72 VA.

Dimension: 186.5x147 mm (7.3x5.8 inches)  
Weight: 2.6 kg (5.8 lbs)  
D77H07-P1030 (Input: 110~115VAC / Output: 24VAC 72VA)  
D77H07-P2030 (Input: 220~230VAC / Output: 24VAC 72VA)

## Indoor Mounting Accessories

There are three types of Indoor dome camera mounting methods: hard-ceiling mounting, in-ceiling mountings, and pendent mounting. With the Indoor Mounting Kit, the DynaHawk™ 701 series will be able to apply to all other dome camera mounting accessories, such as straight tube, wall mount, corner mount and pole mount.

### Hard Ceiling Mount: DH701

#### DH77H06-HC

Height: 21.4 mm (0.8 inches)  
Diameter of the three holes: 4.5mm (0.2 inches)  
Diameter of the bracket: 158mm (6.2 inches)  
Weight: 0.2 kg (0.4 lbs)

### Hard Ceiling Mount : DH500

#### DH500HC

Height: 19 mm (0.75 inches)  
Diameter of the three holes: 4.5mm (0.2 inches)  
Diameter of the bracket: 158mm (6.2 inches)  
Weight: 0.2 kg (0.4 lbs)

### T-Bar Ceiling Mount: DH701

#### D77H06-TB

Height: 160 mm (6.3 inches)  
Diameter: 180 mm (7.1 inches)  
Weight: 0.5 kg (1.1 lbs)

### T-Bar Ceiling Mount: DH500

#### DH500TB1

Height: 85 mm (3.4 inches)  
Diameter: 180 mm (7.1 inches)  
Weight: 0.5 kg (1.1 lbs)

### Indoor Mount Kit: DH701

#### D77H05-IMK

For mounting indoor dome camera onto a gooseneck/straight tube.  
Height: 74 mm (2.9 inches)  
Diameter: 140 mm (5.5 inches)  
Weight: 0.5 kg (1.1 lbs)

### Indoor Mount Kit: DH500

#### D77H05-IMK5

For mounting indoor dome camera onto a gooseneck/straight tube.  
Height: 74 mm (2.9 inches)  
Diameter: 140 mm (5.5 inches)  
Weight: 0.5 kg (1.1 lbs)

## Indoor/Outdoor Mounting Accessories

### Straight Tube

#### D77H03-ST1/ST2

Height: 250/500 mm (9.8/19.7 inches)  
Diameter: 50 mm (2 inches)  
Weight: 1 kg/1.8kg (2.2 lbs/4 lbs)  
Compatible with: DH701/DH801/DH500/DH600

### Corner Standard Mounting Plate

#### D77H05-CST

Dimension: 222×204×117 mm (8.7×8×4.6 inches)  
Weight: 2 kg (4.4 lbs)  
Compatible with: D77H03-GT/D77H03-MP

### Pole Wide Direct Mounting

#### D77H05-PWD

Dimension: 270×170×60 mm (10.6×6.7×2.4 inches)  
Recommend Pole Diameter: 112~130 mm (4.4~5 inches)  
Weight: 1 kg (2.2 lbs)  
Compatible with: D77H03-GT/D77H03-MP

### Gooseneck Tube

#### D77H03-GT

Dimension: 298×385 mm (11.7×15.2 inches)  
Diameter: 92×42 mm (3.7×1.7 inches)  
Weight: 2.1 kg (4.6 lbs)  
Compatible with: DH701/DH801/DH500/DH600

### Corner Plate Mini

#### D77H05-CSTM

Dimension: 270×166×95 (10.6×6.5×3.7 inches)  
Weight: 0.8 kg (1.8 lbs)  
Compatible with: D77H03-MP

### Pole Thin Direct Mounting

#### D77H05-PTD

Dimension: 232×136×50 mm (9.1×5.4×2 inches)  
Recommend Pole Diameter: 112~140 mm (4.4~5.5 inches)  
Weight: 0.7 kg (1.6 lbs)  
Compatible with: D77H03-GT/D77H03-MP

### Mini Pendent Mount

#### D77H03-MP

Dimension: 184×104×115.2 mm (7.2×4.1×4.5 inches)  
Diameter: 44.5 mm (1.8 inches)  
Weight: 0.6 kg (1.3 lbs)  
Compatible with: DH701/DH801/DH500/DH600

### Corner Wide Box Mounting

#### D77H05-CWB

Dimension: 232×234×205 mm (9.1×9.2×8.1 inches)  
Weight: 2.7 kg (6 lbs)  
Compatible with: D77H03-GT/D77H03-MP

### Pole Wide Box Mounting

#### D77H05-PWB

270×166×155 mm (10.6×6.5×6.1 inches)  
Recommend Pole Diameter: 112~140 mm (4.4~5.5 inches)  
Weight: 3.2 kg (7.1 lbs)  
Compatible with: D77H03-GT/D77H03-MP

### Wall Box Mounting

#### D77H05-WBM

Dimension: 270×166×95 mm (10.6×6.5×3.7 inches)  
Weight: 2.2 kg (4.8 lbs)  
Compatible with: D77H03-GT/D77H03-MP

### Corner Thin Box

#### D77H05-CTB

Dimension: 300×164×254 mm (11.8×6.5×10 inches)  
Weight: 3 kg (6.7 lbs)  
Compatible with: D77H03-GT/D77H03-MP

### Pole Thin Box Mounting

#### D77H05-PTB

Dimension: 291×136×242 mm (11.5×5.4×9.5 inches)  
Recommend Pole Diameter: 112~130 mm (4.4~5 inches)  
Weight: 3.1 kg (6.9 lbs)  
Compatible with: D77H03-GT/D77H03-MP

## ➤ CCTV System Control Keyboard

### Features

- Remote control via RS-485 interface
- 3-axis joystick control of PTZ
- Can control up to 255 devices
- Firmware upgrade via RS-232 port
- Built-in clock for date and time recording
- Supports Pelco D, Pelco P, and DSCP protocols
- Password protection and keylock function

### Technical Specification

Control		D7313
Dome Control		Manual Pan / Tilt / Zoom Preset Sequence Cruise Auto Pan Zoom: Tele/Wide Near / Far / Auto
Camera Lens Control	Focus	Near / Far / Auto
	Brightness	+ / -
DVR / Multiplexer	Mode Selection	Split screen mode: full, 2x2, 3x3, 4x4
	Menu Control	Yes
Supported Protocols		PELCO D&P, DSCP (Baud rate selectable)
<b>General</b>		
Environment		Indoor
Controller Interface		RS-485
Operating Temperature		0° ~ 40 °C
Power Source		DC 12V
Power Consumption		5W
Dimensions		103 × 330 × 175 mm (4.1 × 13 × 6.9 inches)
Weight		1.7 kg

### Dimension

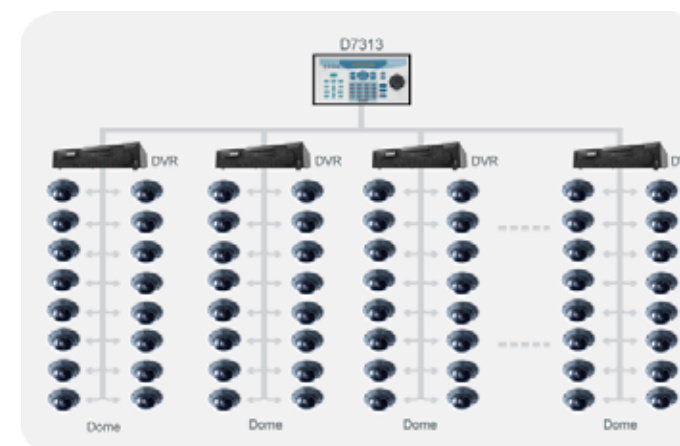

## D7313 Control Keyboard

The D7313 CCTV system control keyboard can be easily integrated with DynaColor's full range of CCTV products, such as DVRs and speed dome cameras via RS-485 interface for remote control and system configuration. The D7313 is specially useful in a large CCTV system, where up to 255 devices can be controlled on the same bus through the CCTV System Control Keyboard, including 223 cameras or receivers, 16 system keyboards, and 16 DVRs.

The D7313 CCTV system control keyboard supports multiple protocols, such as Pelco D and Pelco P, allowing users to integrate our products into existed systems of the other brands and to extend the system compatibility and connectivity. The keyboard system settings and accessibility are protected by the password verification as well as the key-lock function.

The equipped back lit LCD display and 3-axis control joystick offer user friendly operations. The system firmware upgrade can be easily implemented through the RS-232 port and built-in firmware upgrade circuits. The D7313 system control keyboard is an ideal solution for your demanding surveillance requirements.

# ➤ Signal Distribution Unit

## Features

- Distribute RS-485 control signal
- 1x RS-232 input and 1x RS-485 input
- Up to 16x RS-485 output (Model option)
- Capability to output to 160 cameras maximum
- Maximum data transmission distance is 1.0 km
- Selectable system baud rate
- Standard 1U rack mount size
- Power and Code LEDs

## Technical Specification

Item	D77S1
<b>Electrical</b>	
Operating Voltage	DC 12V
Power	8W
<b>Indicators</b>	
Power	LED
Code	LED
<b>Connectors</b>	
Input	RJ-11, RS-232 (9-pin Connector), RS-485 (2-wire Connector)
Output	16 RS-485 Ports (4 & 8 Ports Model Available)
Maximum Cable Distance	1.0 km
Maximum Camera Output	Up to 160 Cameras
Communication Speed	2400, 4800, 9600, 19200, 38400 bps (Selectable)
<b>Mechanical</b>	
Operating Temperature	-10°C - 50°C
Dimensions	432 x 47 x 90 mm (17 x 1.9 x 3.5 inches)
Weight	1.2 kg

- 08: 8 channel
- 16: 16 channel

## D77S1

D77S1 is an intelligent signal distribution unit (SDU) packaged in a 1U rack mount chassis and designed to amplify and convert control signals between control keyboards and speed dome cameras. It is generally used to amplify RS-485 control signals that travel long distances between the controller and receiver. It can also be used to convert RS-232 control signal into RS-485 signal format. One signal input can be distributed among up to 16 outputs.

The SDU can be installed in either "star" or "daisy chain" configuration with up to 160 cameras. Its versatile installation configuration makes an easy integration into expanding surveillance systems; ideal large-scale installation sites include airport, hospitals, schools, stadiums, etc.

## ➤ Coaxial Telemetry

### Features

- Supports all RS-485 protocols
- Supports DSCP and Pelco Coaxitron® protocols
- AC/DC dual power input
- Normally Open/Close alarm in
- Signal delivery distance up to 900m (DC resistance below 2.8 Ω)
- Supports up to 255 devices
- Supports parity check
- Supports multiple Baud Rate (2400, 4800, 9600, 19200, 38400 bps)

### Technical Specification

Item	D70CB1
Operating voltage	DC 12V; AC 12 ~ 24V
Input	BNC (Video In), RS-485 (RJ11), Terminal Block
Output	BNC (Video Out), RS-485 (RJ11), Terminal Block
Maximum Device ID	255 set
Baud Rate	2400, 4800, 9600, 19200, 38400 bps
Protocol Type	UART Coaxitron
UART Parity Check	DSCP, general type (1 byte ~ 8 bytes) Pelco D
Maximum Distance	None, Odd, Even
Dimension	900 m (DC Resistance: 2.8 Ω/100m; AC Impedance: 75 Ω)
Unit Weight	100 x 90 x 28 mm (3.9 x 3.5 x 1.1 inches)
Operation Temperature	280 g
	0°C ~ 40°C (32°F ~ 104°F)

### Dimension

#### Front Panel

- ① Video Input
- ② Video Output
- ③ RS-485 ID
- ④ Config

#### Rear Panel

- ① Alarm & RS-485
- ② RS-485 (RJ-11)
- ③ Power Jack

### System Configuration

Default configuration

Pelco Coaxitron® Encoder

Pelco Coaxitron® Decoder

## D70CB1

D70CB1, a device combining coaxial telemetry transmitter and receiver, allows the dome camera to transmit video signal, RS-485 control signal, and alarm signal over one single coaxial cable. The coaxial telemetry takes advantage of existing coaxial cable in surveillance systems consisting of fixed CCTV cameras and enables users to upgrade to dome cameras without additional wiring. The transmission distance can be easily reached 500 meters to 1000 meters, eliminating the need for repeaters/amplifiers and reducing the cost of wiring.

## Vandal Proof Fixed Dome Camera

## DynaHawk™ 210 Series

The DynaHawk™ 210 series is a 1/3" CCD color vandal proof fixed dome camera with high image quality, increased sensitivity, and Day/Night switching for both indoor and outdoor surveillance system. The built-in Backlight Compensation, Auto Exposure, and Automatic Gain Control functions achieve superior image quality and stable camera performance. With die-cast aluminum construction and IP66 weather resistant dome housing design, the DynaHawk™ 210 vandal proof dome camera guarantees uncompromised security for both indoor and outdoor application. Its vandal proof body will protect the camera in damage prone environment such as prisons, schools, stations, or warehouses.

### Features

#### Dome Body:

- Weather resistant (IP 66 international standard)
- Vandal proof structure with metallic base
- 3-Axis (Pan/tilt/rotation) position adjustment
- Security Torx against tampering **NEW**
- Built-in heater and fan (Optional) **NEW**
- 4S Mount Support

#### Camera:

- SONY 1/3" Super HAD/EXview CCD sensor.
- High Sensitivity, Low Smear and High S/N Ratio
- CCD Blemish Compensation

- Backlight Compensation (BLC)
- Auto Exposure
- Anti-color-rolling
- Automatic Tracing White Balance
- Automatic Iris Control
- Automatic Gain Control (AGC)
- Auto Electronic Shutter
- Flickerless mode
- Mirror Function
- Built-in anti-aliasing optical low pass filter
- RoHS, CE, and FCC.

## Color Box Camera

## DynaHawk™ 060 Series

The DynaHawk™ 060 series color box camera adopts superior 1/3" CCD sensor, Digital Signal Processor (DSP) IC and is developed basing on DynaColor's enriched and professional video surveillance knowledge, to produce outstanding image quality. The horizontal resolution of more than 520 TV lines and a signal to noise ratio of more than 50 dB also ensure sharp video clarity. Advanced camera features, such as Backlight Compensation, Auto Tracking White Balance, Auto Gain Control, etc., guarantee superior image quality and enhance various application possibilities.

With the built-in infrared cut filter, the Day/Night DynaHawk™ 060 series color box cameras capture color video in light conditions down to 0.2 lux, and automatically switch from color to monochrome to capture detailed image in dark conditions as low as 0.03 lux, enabling 24-hour surveillance.

### Features

- Sony 1/3" EXview / Super HAD CCD sensor
- High resolution>520TVL, Middle resolution>420TVL
- Employs Sony Digital Signal Processor (DSP) IC
- High sensitivity, low smear and high S/N ratio
- Day/Night function (IR Cut Remover) **NEW**
- Excellent low-light performance
- Auto Exposure / Auto Iris

## Color CCD Board Camera

### Features

- SONY 1/3" and 1/4" Super HAD/EXview CCD sensor.
  - Employs Sony Digital Signal Processor (DSP) IC for image control.
  - High sensitivity, low smear, excellent anti-blooming and high S/N ratio.
  - Digital Output ITU-656, 8bits (DH006 only)
  - Built-in anti-aliasing and IR-cut optical filter.
  - RoHS, CE, and FCC.
  - Built-in high sensitivity microphone (DH006 only)
- Support functions:
    - Auto Electronic Shutter
    - Auto Gain Control
    - Auto Tracking White Balance
    - Backlight Compensation
    - Flickerless Control
    - Auto Exposure/Auto Iris

## DynaHawk™ 005/006 Series

The DynaHawk™ 005/006 compact Color CCD board camera employs the Sony Digital Signal Processor (DSP) IC. With the features of superior sensitivity, low smear, anti-blemish and high S/N ratio, the color board camera ensures image clarity, while the support functions of Auto Gain Control (AGC), Backlight Compensation and Auto Tracking White Balance (ATW) work together to achieve consistent video output level. In addition, the camera provides Digital and Audio Output for versatile applications. The color board camera is ideal for embedded system and concealed applications, such as ATM machine, POS machine and door phones.

### Product Selection

## Service & Support

DynaColor designs and manufactures CCTV video surveillance products and CRT/LCD AOI system, and dedicates itself to be an "image solution provider".
